6.	The approval of the proposed change is for irrigation and quantity results in a total of all appropriations on the land exceeding the rate of one-seventieth (1/70th) of a cubic-foot-per-second per acre or an annual volume of three acre-feet per-acre; describe the soil type
	and proposed cropping pattern at the new location of use:
7.	Check one below:
	The Department shall determine consumptive use.
	An analysis of consumptive use is attached to and made a part of this application.
	This project is to transfer an irrigation appropriation to another location for irrigation. The point of diversion remains the same and the number of acres to be irrigated will not increase after the transfer, and therefore, no consumptive use calculation is required.
8.	If application is filed by an irrigation district, reclamation district, public power and irrigation district, or mutual canal or irrigation company, the names, addresses, and signatures of the landowners who own land described in paragraph 7 on DNR Form 962-9 shall be submitted on DNR Form 962-6 with this application indicating they agree to have the water appropriation transferred off their land.
9.	For lands listed in 1 above, check all boxes that apply: All lands have been cultivated The lands contain no native grass Some of the lands have been cultivated None of the lands have been cultivated
10.	If applicable, the legal descriptions of the beginning and ending stream reach to which the appropriation is proposed to be transferred for the purpose of augmenting flows: Stream:
	Beginning: 1/4 1/4, Section , Township North, Range E W County
	Ending: 1/4 1/4, Section , Township North, Range E W County
11.	If the application requests a change in location of use for incidental underground water storage outside the approved boundary, sufficient hydrologic information to identify the extent and scope of the underground water storage and naturally occurring ground water, including but not limited to the information described in Department rules 457 N. A. C. 16.002.03A-H.
