

I- Transfer mini trans. to mini trans. subcom of WP.  
- Done.

II. - 46-294 (1)(c) p. 12.

Inter = new rt.

Intra = mod. of existing rt.

A) Not we + some thing.

46-288 stays

But 46-294 (1)(c).

AB- (1)(c) prevents - if rt. on <sup>long</sup> trip +  
want to move to main street of  
Platte + ca show no ban -  
this would prevent the.

DK- 288- says direct + transport.

294 = only way to move existing - but prohib. b.d.

AB - correct.

DK- Big push for trans. B/T basins?

SF - occasionally - more now.

DK- no big (P) to do - so why allow  
for the flexibility.

Take up to Exec. Councils.

"if want to do - show no ban"

DK → already there

AB → eliminate (1)(c) - Gary made concern

DK - Don't want fight if no one opposed,

AB - Discuss. (P) Exec. - some needs to

WPTF Com  
Exec  
Agenda  
Item

explain this (I) more carefully.

AB Provides comfort to people like Gary M.

DK will discuss Gary matter.

3) 46-294(1)(g).

AS- could live w/ facil. over = opp to show bar.

AS- irrig. to irrig.

DK + notice + OK.

AS- Can live w/ as long as not absolute control to another for mineral participation

(\*) Draft alternative for Task Force.

<not consensus - thoughts>

to sub determination ~~etc~~

p. 25- "when 46-720 is applicable"

ADD to Vif OK to drop 46-713

SH @ re: 46-655.01 (2)

"contiguous parcel of land"

contiguous parcel <preferred by DK>

Notice of Intent

Discussed 61-205 + 46-691.03

+ idea of new stat. re: warrants etc.

→ "Pretty close" to Exec. Com.  
then schedule another mtg.

5) Schuch - (I) (2) Test Force mtg.

→ Trans. from div. floor to internal  
redraft. < 46-290(3)(a) > OK

→ 46-299 < 1983 cut-off date >

AB - This covered.

AB - Br. Cr. - int. redraft - could wait d.

< not indorse >

⊗ [unless Kre: certain  
to pay fees.]

<sup>AB</sup>  
6) Retire GW well to offset new SW depletion  
Not as clear under stat. that we can do this.

7) Chgin pts. of diversion rule.

OK - language.

AS - Could you transfer all if rest?

SF - Just CU.

8) Application to spread

→ OK - if not O-A, not a problem

SF - A lot will be able to do agree

Either say "all" or "none"

D Str - OK if not F/A...

"Leave it."

9) 46-714(2)(b) - prohibition re: use of existing to ↑ acres.

→ AB - can do new well & ↑ acres...

→ Still have to offset.

Need to fix??

10) (F) re: SW+GW land + transfer of SW to another parcel + it upgrades acres.

AB - OK to move SW to land already irrigated.

D Str. - Deal w/ in IMP.

DK - or "can be transferred + is dealt w/ in IMP."

make clear - recommend allow transfer + if

there's new CU address in IMP.

Will create offset - BUT

Can say SW can't be transferred.

46-714(2)(b)

46-290(1)(b)(vii)

#  
46-294(1)(b)

46-294

"Approve if water use cases on 2 other use is offset."

⊕

Apr. to draft.

ii) NROs can reg. wells < 50 gpm.

Language re: might be able to reg. if  
not domestic.

DK - Re: string together.

AB - Already have...

DV - Focus on total annual volume...

AB - SPNRO - focus on domestic use...
