BB - GW papers around Sittlerland wouldn't accept  
1x payment.

need flex. to be based on what future brings.

DK - ??

BB - Folks wouldn't take with program of 1x.

DK - if don't take - other 1/2 of program = NRD  
will regulate.

D said - Options instead better?

AB - Don't want debate over type of program. Can't predict.

GLT - Package for approval of concept + dollars needed

AB - Dollars needed - Concept = incentive program  
Details = later.

GG - Concept of minimal reg.?

DK - a race

GG - the reality will care B/T NDR + reg.

AB - Why "minimal" = good.

July R -

GG - Will it get us confidence?

AB - Short term problem.

System = so much inertia - Could do a lot next yr. 40 response from water.

Would get us where we need to be next

10-15 yrs. w/ minimal amt of regulation.

J.C.

DK option 25%.

JL - Sep. from the CREP not plan retro.

ML - Looking @ 15 yrs. - CREP + EQIP 4 in that

GG - Only count CREP on signed K's.

Senate side - CREP-EQIP etc. will take  
a big hit.

AB - Signed K.

Have 60K signed K's. Other 10 K's.

GG - Cross as go along. Next step??

DK -

DSAs - figs. = total - NOT local cost share

DNR

Share =  $65 \frac{135}{35} - 1000$

DSAs - Cost raise 30% of 10.8 million.

JR - on prop. taxes?

42.5 m. - G+P ( $\approx 25\%$ )

31.9 m left - goes into water fund.

7.5 m. op. budget 962

Balance - what's need

Sunset 10 yr. 4 2 yr. lag.

Pub. Op. survey to i.d. issues of notes concern  
Program Recommendations.

Ballot language = key.

Big @ for failure = well-funded opposition.

JG - No correct res. whether need...

D Sants - Sunset goes to accountability.

GG - more difficult to get into a ballot or

D Sants - Study = req. from legis. -

Get language right = most important.

AB - Hx. preservation passed to everyone's surprise.

D Sants - Don't need huge \$ for campaign.

JG - def. TP reaches consensus.

D Sants - TP pay for feas. study / poll?

JG. 25-30 K for 2 things.

RB - A TF bus?

AB - Not sure can be used % study \$.

JG - For poll + feas. study - it's NOT lobbying.

BB - Snelly Capid. -

DS - Poll results,

BB - Can do thru state.

JK - Visit States <sup>B/4</sup> use TF. Snacks of getting to political activity.

DS - Said may be able to find grant \$ for.

JG - Report to TF -

JK - A little strategy,

This to create rep. etc. Funding issue - can do more of private group than of full TF.

AB - How what saying re: research,

Getting ~~more~~ more to

Clear of public TF - not private.

GG - dy habit can this for - but since almost set in course - maybe private entity = ~~for~~ better.

DS - 1) What

2) Who repr.?

DK - 1) Keep results private

2)

DS - Coalition looks like TF -

BB - Coalition = you + Jay...

GG - TF become party?

DK - Could make recommendations

JG - Wants 962.

What is difference?

JK - 962 - asking to pass legis. - how asking

to create something to put a balloon

Start private group now - so ready to run it.  
Could do what propose + go to legis.  
but @ that point - can NRND parties  
is pushing legis.

DSnd - They said we could partner in  
balloon (I) w/ funding.

GG - What to do to get ready for ity. in NP.

BB - need this + \$ + here's steps - need  
both points to sell to TF.

DK - Pub. entities can lobby legis.

What asking selves to do that's different?

Here's dollars - how go get??

Don't know sequence.

Details (how - do) = working on.

GG - How approach \$ - raising (I) for NRND?  
Take care of local funding first?

DK - i.d.'d - probl. - Q = how deal w/ local funding?

GG - Success on ballot only if can convince  
it'll lessen load on local NRND.

DK - Can you sell if no local notes?

JG - Find out restrict - from polster  
or wherever. If have 25 votes, no  
don't need local patch - don't care.

Ed. will support legis. allowing  
NRND to access 1/4 out of budget

restricts. to use if you need it

DK - Already counting on.

GG - Already spent

JG - 100% match?

DS - 1m/yr - that's total 2¢ of assets.  
across district.

MC = 1¢ = 135K

PS = 1¢ = 155K

AB - couldn't do both - you'd have to do additional

DS - Right.

DK - Long term approval could be helpful +  
is primary goal here.

JG - ~~but~~ Do wording -

NRDs affected by interstate Compact,  
settle. agree, etc. - allowed to exceed  
limits as well as budget limitations by  
x. Other NRDs ~~don't~~ <sup>DON'T</sup> get.

No one trusts anyone.

Be sure what doing doesn't have adverse  
effect on other folks.

AB - D+A area + g Compact.

DS - ~~Can~~ Can do this now - but LK NRD can.

MC - 3¢ would do it.

1¢ is for D+A.

JG - what you'll have to do - limitation re:  
what funding will be used for.

That way, less ~~problems~~ problems.

Hard sell - but a start.

Help address prov. 4 levy - long

term - sure ~~but~~ kind of funding.

CG - need list of Senators for Jan + d to talk to B/Y wty.

JG - = NRC  
- Approp.

DS - ~~Wasting time~~ Wasting time.

CG - Told them we'd care if what preparing now. Just can present - will be lots of Q's.

(\*) BB - Nov 18th?

JR JG idea re: alternatives:

- 1) ~~current~~ <sup>current</sup> req. of incentives
  - 2) more stringent regulation
- How present that

MC - Scarey #'s to share w/ group.

3) default

RB - Share scary w/.

JR - 1st reaction may be - let's regulate.

DK - Answer = shut off all wells + still out of caplan.

RB - If that's solution - how into caplan w/ plan?

DK - Short term = hey,

DS - Be careful re: ballot initiative.

Raise + phrase carefully b/c press'll be there.

Explore option of ballot initiative

re: N's best resource < etc. -

add sound bytes >

BB - Need to put strategy together & talk to people B/Y.

DK - Carr talks to people about strategy.

DSDS - Strategy?

BB - Re: what you'll explain to members of committee.

What you'll say to members of legis.

DSDS - Re: Strategy...

BB - 'Ob legs?

DSDS - Yes.

JG - Don't have time. 4/12 = last day of legis.

JR - Feb. takes up 4 a.m. legis. + p.m. things.

BB - Gets back to short-term / long-term strategy.

GG - JG + JR decide who needs to be talked to.

Need 1 NRD person there to give details.

Need other people from committee to outline (JR + JG strong points) re:

alternatives + diff's B/T Platte +

Repub.

"Assist for Sen. Schools instructor re, assist JG."

McCl. - Problem faced "y" - will come back & say "why only picking up 1/3 of tab." That'll be the tough sell.

AB - Alt. = "even if did x y z can't get  $\text{\$}$  + downside = regulation."

Bretz -  $\text{\$}$ 5-6 m provided for on dist. + trade off = no park permit.

D. Sauer Dist then no permit should go a ballot.

Bretz - Whole state pays for small part of state. Writes out rest of state re: getting me of  $\text{\$}$ .

DK - Resource Dev. Fund / Soil Conserv. Fund.

AB - War. Pol. Tr. Fund now has  $\text{\$}$   $\text{\$}$ .

RB -  $\text{\$}$  needed?

JG -  $\text{\$}$ 402 B.  $\text{\$}$ .

GG - Have to bring up lid cap on MRBS.

AB - Sort of has to go w/  $\text{\$}$  asking for. 10 more asked for.

JG - <sup>upto</sup> 34 for local funding.

D. Sauer - 34 on top of 14 already got.

AB - All 3¢ linked to O-A & Cognate?

RB - Correct & people in Butch's wouldn't pay for it.

JG - do do & fall out of Cognate = important.

\$60m spent for litigation on Platts

m.c. - Be careful - are going to be out of Cognate on Repub

JG - do out of Cognate + KS calls - what does that cost?

JR - need to talk to Cochran.

DS - add 1¢ for everyone?

RB / GG - No. Just O-A / F/A / Cognate

GG - where at?

RB - Q - Do 4 3¢ - what % total?

DS - 10% - can't get 1/3. Not possible  
no other fuel's sources.

RB - 90/10 cost share. To get 10% - need 3¢.

m.c. - B/A full TF - need to go over whole package. Lay out key Cognate so people can understand & get Committee together.

RB - make sure all understand
