**Subject:** Agenda and files for conference call on .Monday 2:00 CST Call in number 402-472-6292  
**Importance:** Low

Baseline  
1981-2002.xls

Reduction  
aseline.REPEAT 81-2

Enclosed are two files we will probably want to discuss on Monday.

I would suggest the following agenda for the call:

1. Review analysis used by Marc to calculate the inches per acre for each NRD - this is the 8.75 inches per acre number that is the concern of the MRNRD and LRNRD.
2. Review of the actual numbers and accounting file for 1981-2002.
3. Review of the baseline file for 2001-2004 using the repeat of the 1981 - 2000 data.
4. What changes should be made to these analyses?
5. What should be presented to the NRD boards?
