

Sept. 5 2003 cont. (page 2)

- Surface Water trends - Lee Wilson
- S W operations model - DNR in house if needed
- Meetings w/ NRDs - MMA?
- GW foundation - presentation by MMA?
- Sept 18 Meeting - River Basin Association Mtg.
- Interaction w/ cohyst (Chuck's question) - Ann's response - Paul
will be the bridge between MMA + cohyst
- Chuck: Spend time to create slides for NRDs?
Ann: Don't spend a lot of time + put "Draft" all over it.
- Chuck: In next few months will we address the little glitches like the Hitchcock 23" number etc?
Ann - we'll address this issue in the future, so we'll add a category called "Changes to model due to better info available"
- Chuck - this round of modeling or future round to correct things like The Hitchcock?
Ann - future issue
- Mike M. - some of pumping is wrong, but we shouldn't bother now. Wait until we have collected a few years of better data + see if it makes sense to go back + revise.
- Scenarios from NRDs - Give MMA a little flexibility
- Output configuration for plugging into Accounting Sheets
this will be categorized as working with Engineering Committee

Sept 5, 2003 cont. (page 3)
Ann's Q for MMA =

Any work for Larry Land? Water level
ET
Baseflow } worked on

A Mark Satt will find out if he can sub out Larry after MMA let's Mark know what he could add

Ann's Q - Do you need Cookson to explain what Litigation Clean Up means?

A Yes, but we need an extended time to use the files at MMA offices for continued use. MMA needs to know if they can keep copies of necessary working + historic files

Is it possible Switch between Oct 15 mtg + Oct 27 mtg because

- Provide a CD of PDF's of each slide with draft all over it, before next meeting

When does training start for Paul? After next round.
