

Complaint on File about Reservoirs up stream of Jack Frear

Give interfering dams a current priority date as long as they can prove it is not a new dam and if they can demonstrate they have the ability to siphon or otherwise pass water to the older permitted dams.

★ = To Do Item

★ Can estimate storage based on surface area of normal storage area. - use GIS tools

Send out letters explaining the requirements for registering the dam.

Owners will need to provide a minimal set of information to describe the physical setting + parameters of the dam.

★ Work with Pat & Brian to prioritize dams over 200 af, so we get a area-capacity table for those reservoirs. They require a monthly measurement

★ Work with Pat & Brian to see if we can create a look & see in July if reservoir is dry.
