Re: Republican River Compact
Kansas Representative on
Engineering Committee

Gentlemen:

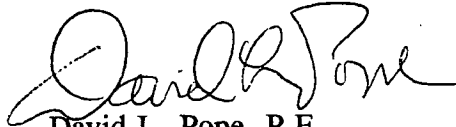

This letter is to inform you that David Barfield, formally a member of our Interstate Water Issues Special Project Team, has recently been promoted into the position vacated by the retirement of Jerry Hilmes. As you are aware, this permanent position is dedicated to work on the technical aspects of Kansas interstate compacts and other interstate water issues. Mr. Barfield will serve me as a representative for Kansas on the Compact's engineering committee. Jim Bagley, as his supervisor and due to his experience with the Compact, will continue to serve me with Engineering Committee duties as well. As Mr. Barfield will devote a greater percentage of his time to compact issues please use him as the primary contact for Kansas regarding engineering committee duties.

As a reminder, the Compact Administration agreed at our last annual meeting, to develop a listing of all the reports dealing with the Republican River geology, groundwater resources and hydrology. Mr. Barfield is nearing completion of a draft listing for Kansas and hopes to forward it to your engineering committee representatives within the next week.

Mr. Hal Simpson
Mr. Mike Jess
