

Summary of
Conservation Committee

Gordon Aycock - project manager from the Bureau - in Billings, MT

Principal Researcher - Derrel Martin
- UNL
(our goto guy on ET & recharge etc.)

Jim Koelliker (sp.?) @ KSU

- They investigate H₂O transport into, out, under small reservoirs & terraces.

Committee meets 3 times prior to compact, generate a report

- The 3 States engineering people are in on the conference calls

Our part is in-kind surveys services
- Area-capacity tables survey
- Brad has helped install & monitor piezometers & other instrumentation.

- The committee is trying to figure out how much the activities of man affect runoff, ET, percolation/recharge

So far we've negotiated the effects of terraces & tillage outside of the Compact.
