

13:15 or so

Introductions

13:29

Bureau of Reclamation

Reported on conservation projects, instrumentation, etc

13:36

Legal Committee

- 1. Interstate transfer
 - 2. NF Reservoir Evaporation Below Hartan
- } NOT RESOLVED

< Much discussion regarding the interstate transfer issue >

Ended with Ann's statement that she hopes we can resolve this in the legal committee; that we are conceptually in agreement.

< Not much discussion regarding NF Evap. >

JRW pointed out that the way in which this is resolved, is important - where FWS says one thing, Appendix C says something different

14:04

Conservation Committee

Scott Guenther

5 minutes - introductory remarks

3 years complete, 2 years remaining of 5 yr.

2.3 million acres of terraced land in the basin:

220K CO } Bureau digitized

890K KS }

1.2 M NE - Derrel digitized

Each state got a digital copy

Terraces are up to 50 years old
- so we're sampling them to identify condition

Future: Continue data collection
Condition assessment
Calibrate models on the two test basins

Kent

Committee is looking for guidance - what to start putting out to the public
-> How did you come up with 220K acres of terraced land in CO

Scott

Color photos - mostly 2005 FSA photos
If a field was terraced, the entire thing was considered a terraced system, even if some corners were not controlled by a terrace.

14:30

Darrel Martin

Picture from 2002
Bench vs. V-notch terrace
Closed end vs. open end

Rainfall variation - one inch per 25 miles

?

Jim Koeliker

15:30

Finished his report

< Discussion of requests for public meetings

< Discussion of NRCS involvement

15:50

Break

16:13

Engineering Committee

↳ BROKE @ 5:30 p.m. for dinner;
 Got back together @ 7:37 for the
 engineering committee meeting.

20:00

WE took a break, brought in Ann Bleed.

20:15 or so

KS took a break for 50 minutes.
 Wanted to finalize the numbers by appendix
 C methods as is, with a protest for
 future years. We said no! Agreed on
 inputs but could not finalize numbers
 due to 3 issues (see engineering
 report).

22:00

Adjourn
