 Dave Bayfield, Don Theris  
 George <sup>MUSTIN</sup> Lee, David Pope  
 ↳ the attorney for HS  
 Ken  
 Megan  
 Pete Ampe

Ron  
Lee

Ron discussed his changes to Pete's memo  
HS (Lee) said that they got our changes  
yesterday. They understood that NE doesn't  
want to give up sovereignty to other states,  
but a simple notification doesn't get  
HS to where they want to go.

Dave ~~Lee~~

The compact is law in all three states & therefore  
all three can put an agreement in place.

Justin

If a state doesn't want to accept consumptive  
use they can pass a law requiring a permit  
to import or barring import. We're not  
going to pass state laws through RRCA.

Ann

Can we adopt this memo? We can  
revisit it @ another time

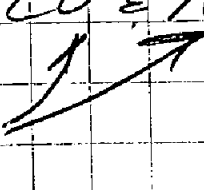

< Discussion of # of pending permits >

< Discussion of how permit requests  
should be handled >

Ann

A receiving state could weigh in <sup>(requesting)</sup> denying  
a permit & it would be considered in  
light of the public interest.

Lee

Ironically we could protect CO & NE  
from H<sub>2</sub>O going from US to   
@ same time we don't have reverse  
situation to protect ourselves

Ann

moved, got one OK, to move forward on memo

Ann

non-Federal below HCL - any changes

Tim

No

Dave

Agrees - no change

2nd issue - need to review data used  
by NE for 2006

Ann

That's separate from non-Federal below HCL

Dave/Ann

< Discussion of basis for dispute. Dave - have to go to Dispute resolution, Ann - why?

Lee

described memo HS wrote. Offered to go into reasons for statement during settlement.

Lengthy memo; received one paragraph response from NE stating disagreement

Ann

Need to have face-to-face discussion on this issue. We'll look @ memorandum on our side & get ready to discuss

Ann

Evap Split

Jim

HS wants to revise proposal. ~~The issue~~

Dave

HS has not revised proposal. The issue is what Henry Nelson calls "The Dead Water" considering how the Bureau deals with the H<sub>2</sub>O. Is NE open to discussing the issue?

Ann

Yes, open to talking about it. It's primarily HS/NE issue (don't want to exclude CO, but not their deal.

Ann

What's next step?

Dave

- either work on it together or separate

Ann

We'll take a look @ the memo from US & discuss

Ann

Recharge & return flow

Tim

Discussed how we're interested in looking more closely

Dave

Offered to provide a summary of their data

Ann

Statement on consumptive use - summarized our attempt to discuss in Denver  
Hope you're willing to continue to listen

Dave/Ken

→ Willing to listen

Ken

Want documentation prior to next meeting

Ann

We're working hard on it. We'll provide documentation prior to the next meeting.  
May be helpful to have modelers get together prior to next TPEA mtg.

again

Ann

We'll get you a report as soon as we can

stream Gage  
Sappa  
Wk  
Ann  
Brad

Brad?

Learned, <sup>yesterday</sup> USGS moved the gage on Sappa Creek upstream 3 miles

& Anybody notified?

(Discussion - is the old one dead etc?)

Ann Offered to draft a letter, will send around for comments, then send to USGS

Ann & Other issues?

Pete ~~Reaffirm~~ FSS requires PRCA to reaffirm choice of mediation every 2 years

Ann When shall we meet?

Ken Need to have something on #5

Ann Late January / Early February

Dave Hoping for December meeting

Ann CO?

Ken Face-to-face worth it, but useless if we don't have documentation. DEC is tough  
Jan. preferable to Feb.

Dave

Early January is full. December has more room in it.

Ann

We'll get something to you by the end of the year

Lets schedule GW modelers mid-January  
RREA shortly thereafter

Dave

So all these other issues will wait on this one issue? The others are important

Ann

Agree this is important

Ken

Lets have GW modelers meet in Denver in January, then RREA in KS.

**AGREED**

↳ agreed Megan will set up date then we'll set meeting date after for RREA

Reports - ~~KS~~ memo on HCL evap split

→ Memo on ~~the~~ notification

NE CBCU memo

Brad to look into stream gage change on Sapper Creek

to formalize & look @ next step
