- Don B.
- Brian D.
- Jim W.

Jim: CBCU issue
 - They will essentially zero out the differences for each sub-basin

Definitions hold - no change

Next draft will happen by 11 July 2008

Allocations can be calculated w/o referring to individual impacts

Central Difference Averaging is the correct ans.
 (but still an estimate)

Discussed running it past a technical expert (prior to giving it to KS)

& have it peer reviewed by a "lay person"

Justin: Folder & everything needs to be brought to 8th-grade level

Tom/Jim: Should we amend the McDonald Morrissey document that said the mound is OK

A meeting on the 17th - Ahlfeld/McDonald either here or on the phone

Need a brief memo on the implications of CBCU: affects CO augmentation
 " " KS remedy & damages
 this is the No. 1 issue

Update Meeting

1 JULY 2008

DRCR Meetings Misc. 2008
