**For Entire District (South of Platte River) we would like:** *Billing Software may not export to a file.*

- 1) The number of irrigation customers billed
  
- 2) KWH sold by District or by Township or by Section if available
  
- 3) Billing Horsepower (Demand)
  
- 4) If convenient Use Codes for the type of installation being metered (i.e. Pivot motor, well, re-use pit )
  
- 5) Irrigation Type (i.e. pivot, gated pipe, sprinkler)
  
- 6) Would it be beneficial for us to come to your office? We are striving to meet a December compilation date to honor our agreement with Kansas & Colorado. How long do you think it would take to compile and transmit the data?

**Database or Spreadsheet format preferred, but photocopy better than nothing.**
