IN REPLY TO:

Aaron Thompson, Area Manager
Bureau of Reclamation
P.O. Box 1607
Grand Island, NE 68802-1607

Dear Mr. Thompson:

I am writing you to follow up on my letter to you dated June 2, 2010. In that letter, which was a response to your information request dated May 26, 2010, I indicated that "given the scope of your request, the limited resources available within the Department, and the legal review required due to Kansas' filing with the United States Supreme Court ... I [would] contact you again within 30 days to inform you of our progress in responding to this request." We are still working on this request and for the reasons quoted above have not completed assembling the information requested.

I do understand that my staff has discussed this request with your staff and that based on that discussion, Reclamation may be able to refine its request so that it does not include such a large amount of information as originally requested, but would still answer the questions posed in that request. If that is the case, please notify me in writing that you would like to change your original request for information and specifically state what information your modified request will cover.

In lieu of a modified request from you, we will contact you again within 30 days to report our progress in responding to your request of May 26, 2010.

Sincerely,

Brian P. Dunnigan, P.E.
Director
