

**ADDENDUM TO THE
CONSENT AGREEMENT AND ORDER DESIGNATING A WATER CONSERVATION
AREA
KLEYTEUBER WATER CONSERVATION AREA (2018-2022)**

This addendum effectively removes Water Right File No. 18,144 and all attributes associated with this water right from the current Consent Agreement and Order Designating a Water Conservation Area. With this addendum it amends the Kleysteuber WCA Water Management Plan.

Water Right removed: WR#(s): 18144

Use Made of Water: Irrigation

Overlapping water right(s) on any points of diversion (well): NONE

Overlapping water right(s) on the place of use (land): NONE

Authorized Point of Diversion: one well located near the center of the Northwest Quarter (NW¼) of Section 21, Township 26 South, Range 31 West, Finney County, Kansas.

Authorized Quantity and Rate: 306 acre-feet and 735 gallons per minute.

Amendments to the existing Corrective controls:

- Goal Expression: not to exceed 2,250.411 Acre-Feet (AF) of the total irrigation allocation in any calendar year from 22 irrigation wells. Original annual allocation was 2,473.006 Acre-Feet (AF)
- (the reduction of 222.595 acre-feet was subtracted off the annual allocation due to the removal of WR# 18144)
- All Irrigation water rights cannot exceed a total combined quantity of 11,252.055 AF over the 5year period.
- Up to the annual allocation of 2,250.411 AF may be carried over and added to a subsequent WCA period for irrigation purposes after 2022; if unused by the irrigation wells during the duration of this WCA period. In order for the carryover quantity to be included, all owners must enter into agreement to participate into a subsequent WCA by December 31st of the last year of this WCA period (original allocation carry over was 2,473.006 acre-feet with WR# 18144)

Amended Authorized Place of Use:

(Section 21 was removed from the authorized place of use with the removal of WR# 18144.)
