RE: In the Matter Of the City of Wichita's Aquifer Storage and Recovery Project, File Nos. 45,567; 45,568; 45,569; 45,570; 45,571; 45,572; 45,573; 45,574; 45,575; and 45,576 DWR Case No. 04 WATER 2869

Gentlemen:

On behalf of the Division of Water Resources, I am transmitting to you copies of the referenced permit applications and the documents submitted in support of the applications. These are marked as **DWR Exhibits A through S**. Included in these exhibits, as **DWR Exhibit P** is a compact disc containing the groundwater model and data submitted with the City's December 16, 2003, response to DWR's comments on the applications. This disc has not been reproduced and is not being transmitted in this package.

DWR Exhibits T and U are copies of reports contained in DWR's files, but they do not appear to have been prepared in support of the applications and were not submitted by the City as part of its permit application transmittal (in July 2003) or its response to DWR's comments (December 16, 2003). For this reason and because these reports are particularly voluminous, they have not been reproduced and are not being transmitted herewith.

City of Wichita ASR
DWR Exhibit Transmittal Letter
November 1, 2004
Page 2

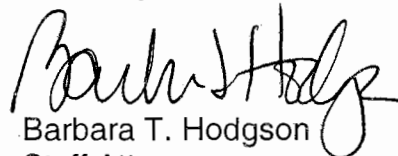

DWR Exhibit V is a copy of the Memorandum of Understanding that was approved by the City Council on August 313, 2004.

The original of the documents, if DWR's records contain them, have been marked for the exhibits that will become part of the record of these proceedings. Each page of the exhibits has been consecutively numbered (Bate stamped), beginning with the first page in Exhibit A and ending with the last page in Exhibit V. Please note that DWR does not have the original of the approved MOU. If the parties wish to introduce the original into the record, they will need to present it to the Chief Engineer as an exhibit.

Copies of the compact disc and the reports that are not included in this package can be made available to the parties upon request. Persons who are not parties may obtain copies by submitting an Open Records Request to DWR.

Please contact Lee Rolfs or me if you have any questions about the exhibits or the hearing.

Sincerely,

Barbara T. Hodgson
Staff Attorney
